

Data of Supervisors of the Doctoral School at WPUT

Supervisor: (academic titles and degrees, name and surname)	Dr hab. inż. Magdalena Urbala, prof. ZUT
Units:	Department of Organic Chemical Technology and Polymer Materials
E-mail:	mu@zut.edu.pl
Contact:	Al. Piastów 42, 71-065 Szczecin Tel. wew.40-16
ORCID	https://orcid.org/0000-0002-2375-5882
Scientific Discipline(s):	Chemical engineering
Research Areas (max. 2000 characters):	The synthesis of UV-reactive monomers, the organic synthesis and technology with transition metal complexes under homogeneous catalysis, the solventless and green chemistry organic synthesis, the analysis and identification organic compounds, the modification of UV-cured polymeric coatings with using UV-reactive monomers;
Keywords (max. 10):	Allyl ethers, enol ethers. Homogeneous catalysis, transition metal complexes, one-pot synthesis, green chemistry, photopolymerization, UV-curing, polymeric coatings
